

FAN SHAPED BACKBOARD SPECIFICATIONS

FM-45 Fan Metal Backboard

1 year warranty

Official size, 35" x 54" fan shaped metal backboard. This backboard is constructed from a single piece of 12 gauge steel, reinforced with 12 gauge horizontal channel sections and a heavy 10 gauge vertical channel.

All reinforcing sections are welded to the shell to make a single, vibration-free unit. The backboard surface is phosphate treated and powder coated for maximum protection against weathering. Mounting keyhole slots positioned at 20" on-center vertically and 35" on-center horizontally. Backboard utilizes a reverse mount goal.

FA-45 Aluminum Backboard

Lifetime warranty

Fan shaped, 36 1/2" x 54" aluminum backboard. This backboard is cast via permanent mold casting, which guarantees consistent quality, backboard after backboard. Surface is white powder coated finish, with a 2" wide orange target area and perimeter markings.

Twelve board mounting holes, reinforced with cast-in threaded steel inserts, allow the backboard to be mounted on many types of systems. Mounting holes are positioned at 20" on-center vertically and 35" on-center horizontally. Backboard includes extra heavy reinforcing ribs and a 1 1/2" flange around the perimeter.

Goal mounting hole pattern of 5" x 4 5/8" will accept each type of goal.

FF-50 Fiberglass Backboard

Lifetime warranty

Fan shaped, 39" x 54" x 1 9/16" thick fiberglass backboard. This backboard is constructed with two pieces of gel coated fiberglass panel, epoxied together over a solid 50 lb. density wood core.

Backboard shall have 2" wide orange target area and perimeter markings inlaid into the face of the bank during the molding process. Four key-slotted mounting brackets, spaced 20" on-center vertically and 35" on-center horizontally, are secured on the backside. Goal mounting hole pattern of 5" x 5" will accept each type of goal.
