

BASKETBALL GOAL SPECIFICATIONS

G-30 Standard Goal

1 year warranty

The G-30 goal has an official size 18" ring, constructed from 5/8" diameter round steel with 12 no-tie net holders and 7/16" steel braces. The universal back plate allows for mounting to virtually all front mount backboards. Complete assembly is then powder coated in official orange enamel. Goal is shipped complete with nylon net and zinc plated hardware.

G-45 Standard Goal

1 year warranty

The G-45 goal has an official size 18" ring, constructed from 5/8" diameter round steel with 12 no-tie net holders and 3/16" x 1 1/2" steel reinforcing braces which support the goal from beneath for almost half its width. The universal back plate allows for mounting to virtually all rear mount backboards. Complete assembly is then powder coated in official orange enamel. Goal is shipped complete with nylon net and zinc plated hardware.

G-4000 High Strength Goal

1 year warranty

The G-4000 goal has an official size 18" ring, constructed from 5/8" diameter high strength alloy steel with 12 no-tie net holders and extra heavy steel braces. The universal back plate allows for mounting to virtually all front mount backboards. Complete assembly is then powder coated in official orange enamel. Goal is shipped complete with nylon net and zinc plated hardware.

G-2000+ Safety Reflex Goal

2 year warranty

The G-2000+ meets all NCAA and high school specifications. The G-2000+ has an official size 18" ring, constructed from 5/8" diameter round steel with 12 no-tie net holders and includes a damper device to prevent the fly-back action that occurs with other rims. Positive lock holds rim in solid playing position. The universal back plate allows for mounting to virtually all front mount backboards. Complete assembly is then powder coated in official orange enamel. Goal is shipped complete with nylon net and zinc plated hardware.
