

SAFEDGE PADDING SPECIFICATIONS

#1554 Safedge Padding

1 year limited warranty

Constructed of a gray 2" thick closed cell rubber, #1554 safedge padding meets all NCAA and high school specifications. The center channel is 1 1/2" wide to fit the width of a rect. wood or rect. fiberglass backboard. The corners of the padding are mitered for an exact fit and easy installation. Safedge padding extends 15" up each side of a rectangular backboard for further protection. Adhesive, brush and instructions are included.

#1654 Safedge Padding

1 year limited warranty

Constructed of a gray 2" thick closed cell rubber, #1654 safedge padding meets all NCAA and high school specifications. The center channel is 2" wide to fit the frame of a rect. glass backboard. The corners of the padding are mitered for an exact fit and easy installation. Safedge padding extends 15" up each side of a rectangular backboard for further protection. Adhesive, brush and instructions are included.

#1654-PM Pro Mold Safedge Padding

5 year warranty

The #1654-PM safedge padding is a winning combination of urethane foam that protects the players and a skin molding process that protects the padding. The tough outer skin provides long-lasting durability to the padding. The #1654-PM bolts easily to all 72" wide official glass backboards through holes inserted in the manufacturing process. All required mounting hardware is included. #1654-PM meets all NCAA and high school specifications. Padding is available in the following seven vibrant colors: Royal blue, Black, Scarlet, Navy blue, Gray, Forest Green and Kelly green.
