

Volleyball Systems

Centerline Elite Aluminum Telescoping Volleyball System

Power volleyball at the highest level demands equipment to match....Centerline Elite Aluminum is used in top collegiate programs across the country and is designed for years of dependable use, quick and easy bowstring tight setup. Aluminum systems have gained in popularity due to their lightweight handling for installation and removal. With Centerline Elite Aluminum standards, you don't sacrifice rigidity to get lightweight convenience. These custom extrusions put high strength, lightweight aluminum where it matters most to decrease post deflection as much as 30% over other well known aluminum systems. Outer pole has durable powder coated finish. Post weight for non-winch end 32 lbs. Winch end 40 lbs.

V1000

Complete competition system...Includes posts, net tensioning winch, V1250K net, V15 antennae, V50P safety padding (choose from 12 colors), net rope covers and V23 floor sockets. Free socket adapters on request. Approximate shipping weight: 160#/truck

V1000NS

Same system as V1000 above except excludes V23 floor sockets.
Approximate shipping weight: 140#/truck
