

Nets at Same Height

Nets at Two Different Heights

V0050 Universal 2 3/8" Game Standard System

Excellent value for elementary schools... This system allows infinite height adjustment between 42" tennis net height and 96" competition volleyball height. Crankless net tightening. Heavy wall steel standards with white powder coated finish. Standards come with adapters to allow installation into 3" or 3 1/2" existing floor sockets in addition to the V24 floor sockets provided. SV08 net is standard. If you are purchasing this system for an official sized badminton court request substitute VM06 badminton net and install sockets 21' apart instead of the 36' standard width for volleyball courts. If this system will be installed on a floating maple floor add V23-CV floating floor plates (not included). Can be used with V50P post padding. Approximate shipping weight: 140#; truck

V90 Volleyball System Transport Dolly

V76 Free Standing Official's Platform

VM1500 International Badminton System

Complete court equipment... This system includes official 2 3/8" diameter, powder coated steel standards, two floor sockets with V23-CV hinged bronze floor covers and VM06 official competition net. This system meets or exceeds standards for all levels of competition play. Approximate shipping weight: 80#; Small Pkg.

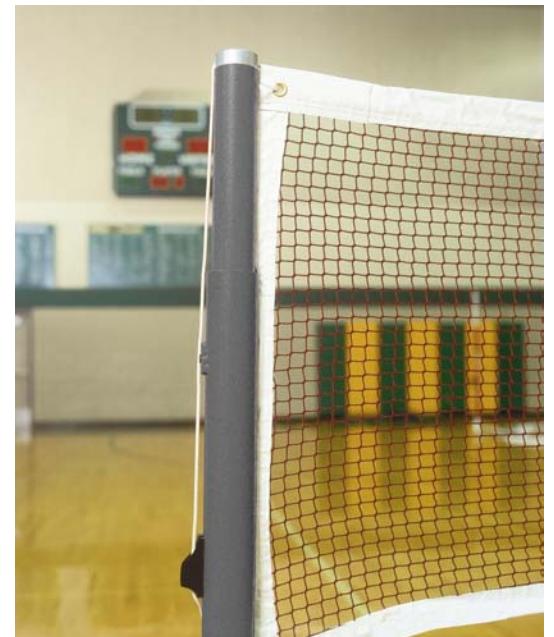

VM06 Official Size Badminton Net Only

Nylon competition badminton net... Official 21' x 2 1/2' size. Also use with V0050 or SV2000 systems if it is desirable to install systems for badminton-width court instead of volleyball. Net can also be used indoors or outdoors on other standards. 90 day warranty.

Approximate shipping weight: 4#; Small Pkg.
